

Personal History

In the early 1980s Pananda DonnaRae overcame cancer by her own means, in conjunction with western medicine.

Whereupon she began to see the world through "new eyes". This "journey" led to training in many healing modalities. An *inner perception* developed to awaken her to her life's purpose - to assist others in their healing.

Her "art" is the use of her acute awareness and sensitivity, triggering the transmutation of energies. This facilitates the healing process in others and assists them in gaining clarity for their own "journey".

Pananda is a trance channeller and able to use her link with higher knowledge that directs and guides her in which *therapy* to use and how to use it for maximum benefit to the client.

Pananda is a transmuter of energy. This facilitates the conversion and clearing away of blockages in the body and the etheric and auric fields, to assist you to Walk Your Talk, standing in your Power, with love of self and of others.

Transmutation Soul Therapy™ Process

- ⤴ **Etheric Body Alignment**, from opening up the gateway to the releasing of the old and coming into balance of the new.
- ⤴ **Higher Energy Alignment** and **Transmutation of energies** as appropriate for the individual's life path.

This Energy transmutation accesses higher realms to help clear blockages.

It is a "way in" to reach a high level of body alignment, assisting the body to use energies to facilitate healing. Understand that no healer actually heals a client. The healer facilitates energies for the client's own body to use, if it is able to. This is why the alignment of the etheric body is important.

Tools that may be used during a session:

- ⤴ **Zenith Omega™** is a systematic transformational tool utilising colour and light frequencies to release energy blocks from the Physical, Mental, Emotional, and Spiritual bodies. Thus restoring each individual to a higher state of potential.
- ⤴ **Trance Channelling** a form of energy communication from higher realms.
- ⤴ **Reiki** is channelled Universal Life Energy. Reiki is a way of activating, directing and applying natural energy for the promotion of health, healing, balance and wholeness.

- ⤴ **Angel Insights™ Reading** Pananda as an Angel Intuitive certified through Doreen Virtue, Ph.D. does Angel card readings.
- ⤴ **TCM Massage** (Traditional Chinese Medicine) technique is used to stimulate the Qi, or energy meridians within the body and relax the body.

Self Responsibility

Childhood experiences, past physical, emotional, or sexual abuses are stored in various parts and levels of our bodies. These blockages affect the free flow of energy and can be a poison greater than chemicals.

Until there is completion, the old paradigms will continue to be our lessons of life.

By looking at what you are ready to let go of without the control issues, you are clearing your way with clarity of choice. This brings new beginnings and being totally aware of what you are asking for in your future.

By being in tune with your inner being, it clears the way for you to be in your passion of choice and fly with it.

Training Classes

Pananda provides training classes for Reiki, Zenith Omega™, Trance Channelling, and Meditation.

Workshops in Spiritual Development are available throughout the year.

Pananda often trance channels beings of the light known as the "Council of Light" during workshops.

What Clients Are Saying about Transmutation Soul Therapy™

"Pananda works in a very gently and yet profound way. She "knowingly" seems to be able to guide me through a labyrinth of memories, mental pictures, colours, feelings and never once have I felt "controlled" but rather, in control of the process, myself." Jane

"You are fantastic, by the way you are able to "tap" into what the problem is." Genevieve

"Amazingly for the first time in years I did not get up to the toilet thru the night, sleeping well and enjoyed the meditation of the letting go." Ostelle

"Thank you for your kindness, gentleness and caring. These qualities have been like a life-giving shower of rain, in the desert of my life." Dee

"In times of adversity Transmutation Soul Healing has given me the understanding, strength and courage to face the responsibility of transcending the false reality of old belief patterns and behaviours through the process of clearing & releasing that which does not serve me". Pina
